**DETAILED ACTION**

**EXAMINER'S AMENDMENT**

1. An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it MUST be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Tu Nguyen on January 22, 2008.

The application has been amended as follows:

Cancel claims 31, 33-36, and 38-41.

***Allowable Subject Matter***

2. Claims 1-4, 6, 9-11, and 14-30 are allowed.
3. The following is an examiner's statement of reasons for allowance: Please see "Applicant Arguments/Remarks Made in an Amendment" filed on October 31, 2007, the attached interview summary, and below.

Claims 1 and 14 recite a system, comprising: a string of electrical energy storage units, a power converter selectively coupled to transfer energy bidirectionally between an individual storage unit and the string of storage units at a controllable rate and to balance a state of charge of the individual storage unit, wherein the power converter comprises: a primary inductor, a

secondary inductor, first and second pulse generators, wherein the first pulse generator provides first enable signals to a switch, wherein the second pulse generator provides second enable signals to the first pulse generator, wherein the second enable signals control the transfer of energy at a controllable rate by controlling the first pulse generator.

Claims 23 and 27 recite a system comprising a string of electrical energy storage units, a power converter configured to transfer energy bidirectionally between the individual storage unit and a string of storage units, and first and second pulse generators, the second pulse generator providing second enable signals to the first pulse generator, wherein the second enable signals control the transfer of energy from the individual storage unit to the string of storage units at a controllable rate.

The art of record does not disclose the above limitations, nor would it be obvious to modify the art in such a manner.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
